A Certain Ephraim Barnes against
whom the Grand Jury for the County
and District of Montreal in this Province
have found three several Bills
one for a highway Robbery and
Two for Horse Stealing together with
another Delinquent by the Name of
James Clarkson Freeman against
whom Bills have been found also
as necessary to Bring in the Last
mentioned Felonies have made their
Escape from the Goal of the City of
Montreal and as I am Informed
have fled into one of the Neighbour-
ing States I take the Liberty of
requesting that should they or either
of them become in your Govern-
ment that your Excellency would
be pleased to cause them to be delivered
to the Bearer Mr Jacob Kulen to be
by him safely conducted into

the Province in order that they may be brought to Trial —

Similar requisition having been made by the Governor of New York in the Two Instances of John Ryan and Ralph Shelps the former charged with Murder and the latter with a Forgery and to which Immediate and strict attention was paid here there no reason to doubt a similar service will be cheerfully reciprocated —

The Bearer takes out Authenticated Copies of the Bills of Indictment found against the Culprits should the producing them be thought necessary —

Because it is reported come into this Province to avoid a prosecution for a Forgery Committed in some one of the United States —

Lord Dorchester's
Letter to
His Excellency
the Governor of
the United States

Department of State June 9. 1841

Sir

I have received from Mr Liston the Minister &c. of his B. Majesty, a note dated the 27th ult.o of which the inclosed is a copy, on the subject therein referred to, is Lord Aberdeen's letter to you dated the 31st of March — the other is a letter from the sheriff of Montreal, dated 23rd ult.o addressed to Mr Liston's note of your disposition to deliver up the offenders Bares and Freeman who fled from justice and fled from Canada, if to be found in your Government, provided the treaty between the U.S. & G.B. do not oppose it — I have communicated the above to the Att.y Gen.l of the U.S. on this point and stated also concurring opinion to the President, that Mr Liston's views on this subject are perfectly correct — The reciprocal delivering up of murderers and forgers is positively stipulated by the 10th article of the treaty — The conduct of the two governments with respect to them offenders is left, as before the treaty, to their mutual discretion — but this discretion will doubtless govern the delivery of culprits for offences which affect the great interests of society — The President approves of this opinion and of the communication of it to your Excellency — Lord Aberdeen's information respecting Freeman is right — He had been convicted of forgery in the State of N Jersey, and some four or five years ago broke gaol fled to Canada.

The sole difficulty in the treaty for the delivery of persons charged with murder and forgery, will be to satisfy the Magistrate charged with the offence to wit — to be taken on such evidence of criminality as by the laws of the place where the fugitive shall be found, would justify his arrest & commitment for

for trial — if the offence had been there committed.
The evidence also to be sworn by those, who ark
for the delivery of the fugitive —
Shewn the bearer to her.
with great respect

Sir,

The board of directors, of the northern inland Lock navigation company, in this State, have determined to re-commence their operations in the ensuing year, and to prosecute, with all possible celerity, the improvements in the internal navigation. Their first object will be, the completion of the canal, and locks at Shensborough, and to clear wood creek, from the timber which obstructs the navigation thereof, so as to render it competent, for the passage of boats of ten tons burthen, in the driest seasons; - to cut down such timber standing on its banks, as may fall into the creek, and create embankments, to form a towing path on one of its banks, the cost of these works, that of a canal and locks, to connect the waters of wood creek, with Hudsons river, the improvements in that river, and the other canals, and locks, requisite to form an uninterrupted water communication, between Lake Champlain, and Hudsons the tide water of Hudsons river, has been estimated at three hundred thousand dollars, this sum, altho considerable, when placed in comparison with the almost incalculable advantages, which must certainly result, from the facility with which the produce of the country, between this and Lake Champlain, and that produced on both sides of the lake, will be brought to market, when the work shall be completed, is nevertheless, so extensive as not to be raised, without much embarrassment to many of the original subscribers to the stock of the company, under the pressure of this embarrassment, the Legislature

not only gratuitously bestowed, twelve thousand five hundred dollars on the company, but as a further aid, has subscribed ~~two~~ hundred shares, on the part of the people of the State; there are however, still one hundred and twenty eight shares unsubscribed, ~~becoming~~ of the one thousand, of which the stock of the company ~~was~~ to consist.

As a very considerable portion, of the citizens of Vermont will participate in the benefits, which will result from the operation of the company, the directors are persuaded, they may with propriety respectfully solicit the aid of your Legislature, and therefore intreat that respectable body to subscribe fifty shares to the stock of the company, on the part of their constituents, and to cause wood Creek to be cleared in the manner above mentioned.—

[redacted] that the Legislature be pleased to subscribe [redacted] shares, permit me to mention, that [redacted] have already paid fifty dollars on each share, and that the return would be to be paid on each share, which may be subscribed on the part of Jon State,— and as it is believed, that the aggregate expence of all the works, will not exceed the sum of seven Hundred thousand dollars more, will be required on each share, by instalments, probably not exceeding fifty dollars in each year, for the five ensuing years, in which time it is expected to complete the works.— and should the Legislature be further pleased to ~~clear~~ cleared wood creek, and cut the timber from its banks, as above mentioned, it would require the labour of about thirty men, for sixty working days, especially if in the course of the ensuing winter when the ice in the creek shall be sufficiently strong to support the weight of trees, which may fall

on it. those ties were cut, and also formed [illegible]
the Creek, as may project above the Ice, and [illegible]
lengths, as that Money with facility flow down [illegible]
the spring freshes.

I have taken the liberty to Inclose for your Excellen-
-cies perusal, a Draft of the Legislature, the Act of Incorporation
two Subsequent Acts relative to the Company, and a report of the
of Directors, from which will be seen the benefits which have
resulted to the Community from the Operations of the Western
-pany, may I intreat Your Ex to lay this Letter with the
mitted, before your Legislature, and to solicit your aid to obtain
the powers of the direction, — and advise me of the result thereof

answer to the
address of the Gen.

To the honorable the Legislature of the State of Vermont—

The Subscribers have flattered themselves by the almost unanimous concurrence of the Legislature in the Journal lately reported by the Committee of revision, that they had executed the trust reposed in them with acceptance and fidelity—

From the short period allowed them for the completion of the business, they have been driven to the necessity of wholly neglecting their private concerns, and of making extraordinary exertions to effect the object— having been informed that the wages resolved for their Services per day by the General Assembly, they consider the same inadequate to the private Sacrifices and exertions which they have made and also they would be willing to make a partial Sacrifice for the good of the public, they cannot feel themselves justified & themselves and families in further pursuing the business for the compensation proposed— And while they adhere the above sentiments for

[redacted] they are sufficiently authorized to refresh the Laws for this friend and colleague Judge Chipman, and Thurston must beg to be discharged from any further attention to the business of this appointment—

and have the honor to be, with the most perfect respect, yours

and the publick very humble Servt.

That he has been informed there were some
public aspersions handed out against his official
conduct yesterday before the Hon^ble House, and also
that there are privately circulating among the re-
presentatives extracts from his public accounts to
prejudice him in the minds of the members. — Never
having received any money out of the treasury but
what has been judged reasonable and passed by the
proper board for drawing monies out of the treas.y
— and being perfectly willing that every item of his
public accounts should be re-examined before any
impartial board he or they their opinion may be
prepared for the present. as the session is now so nearly
closed and the business cannot be investigated, with that de-
liberation and accuracy which he conceives necessary
to exculpate him from those illegal ~~and criminal~~ aspersions which have been
~~at the beginning of a session~~ — He most respectfully solicits
the interposition of the Honorable Legislature to appoint a board of judicious commis-
sioners to re-examine all his public accounts to ge-
ther with the accounts for monies he has received on petitions
between party and party and report their opinion
~~respecting them~~ relative to the whole to the next
session of the General Assembly — and conscious of having never
~~done~~ injured the public, in the mean time, shall with
pleasure await the result —

Dear Sir

I received a line from you [redacted] respecting your right of Land [redacted] I have examined the records of the sale for the general survey tax and Halfpenny tax and find that for the first it was paid before the sale and for the second it was sold to Samuel Miller and redeemed by Jonah Hawkins so that you have not lost it by any of those sales, There was a proprietors tax for allotting the township about 8 or 9 years ago perhaps it might be sold for that but I think that Capt. Daniel Marsh took care of it at that time, I have no register of that sale, there has been no other taxes in that town.

Capt Strong tells me that you proposed selling your right, he says that he has found

Dear Sir

I have for some time past kept a register of all the Proprietors Meetings and Constables and Collectors Sales, for which purpose I want all the News papers that the law requires land advertisements to be inserted in — I find no difficulty to get the Windsor and Rutland papers but the Bennington papers I cannot get — about a year ago I wrote to Mr Haswell to send them to me and he sent me one or two, but sent no more I published an advertisement giving notice that I would pay taxes, give information when lands were sold and when the redemption was out &c. as soon as that appeared the Bennington papers stopt — When you Sir came here I agreed with him to have them forwarded in his name but I got only three papers by that means — I suppose the papers must be stopt by Mr Russell the postmaster as he keeps an office of the same kind and he perhaps thinks I may be a damage to him

What I wish Sir is that you would take the Bennington papers weekly from the post and cover them and put them into your post office directed to me and I will make you ample satisfaction for your trouble when we meet or pay it to you or at any time when required — I mentioned this to Mr Tolman and requested him to ask you the above favour whether he has thought of it or not I know not I am

Dear

Windsor Nov^r 18 1797

I hope the Assembly will Pardon me for
Making no Offer to the Committee yesterday
I proposed to Receive proposals from
Mr Thomas any Offer for the Copy
Right of the Revised Laws. I hope also that I
shall be Pardoned for suggesting my thoughts
on that Subject— I Consider the Right
as Property and I have ever Purchased the Property
of Every Person with any Number but what my
Contract Extended to Printing the Revised Laws
of the Assembly Shall in any way Respect
or Affect the same to be Printed I further Consider
that no one will Doubt but that if the Assembly
Disapprove of any Offer Made by Mr
Thomas but that they will Reasonably
Inform the Same, with not the same
Credit I can with the Formal Examination
of Every Person; will they not Pay
Regard & Attention to any Contract— I Consider
that it is Reasonable that I should
Receive Compensation for my Services
that I Have Rendered the Assembly that I
am willing to Relinquish my Right to Print
the Laws but I am willing
if Required to Print the Revised Volume
to Lodge them with the Secretary of the State or
any other Person the Assembly Shall Direct

I not make Sale of any other Bonds than those are Delivered to me or I will on Demand pay the Money for 1000 Dollars as Specified by my Contract Given Herewith for the Redemption of the Loan and Interest of the Said Money that Shall be Received for the Sale of the Bonds & will Deliver up them to all the Officers of Government at the Times Stipulated in my Contract

all which I am willing to Comply with Bind for that purpose —

My dear Pi,

I arrived at this place, about two hours since - took the papers with me about Borowski's matter, and find Judge Pritchard would not leave this title Monday. of course have not time to copy them - I conceive it however, as they were used before Grand Jury, is now properly belongs to them to certify them - I send on all the original papers - which were read - You may Copies of certify them yourself; but if it be required to be my duty - I hereby authorize you to do it in my name - As to that part of the judiciary Bill, "authorizing fraudulent private persons to come with, and no proper officer could reasonably be had" I think it was meant to be erased - Judge Pritchard perhaps will better inform - I have spoken with him on the subject & who will concern with you - The manner in which it is done, may possibly be some guide - Am hastily in writing with Mrs. L to accompany - but the pleasure not been the less.

Yours truly
